

POWERGUARD SOLAR: PROPERTY & CASUALTY PROGRAM

PowerGuard Specialty Insurance Services, has exclusive relationships with leading underwriters and markets of renewable energy-related warranty risks worldwide. We provide comprehensive multi-line insurance and warranty solutions for the entire value chain within the Solar Photovoltaic and Concentrating Solar Power segments. Our solutions offer the solar sectors the innovation, capacity and expertise to help meet their risk challenges and achieve asset performance optimization.

Coverage Highlights

Our insurance programs offer financiers, developers, manufacturers, suppliers and contractors with the far-reaching insurance, heavyweight capacity, and technical risk and finance consulting expertise needed to manage project risks from pre-construction planning, through post-construction operation. Drawing on extensive investment consulting services, insurance and engineering expertise, POWERGUARD provides solutions for multiple facets of a project, delivering:

- Consulting services for project finance solutions (through our Project Finance Advisory unit)
- Transit cargo insurance with delay in start up (DSU*)
- Construction All-Risk insurance with delay in start up (DSU*)
- Property All-Risk (operational) insurance
- Primary and excess casualty insurance
- Expert loss prevention, engineering and claims services

Property Insurance

Concentrating Solar Power: Comprehensive property protection is available for the full range of energy risks, including parabolic trough, linear Fresnel, central receiver (power tower), and parabolic dish systems.

Offerings include:

- Construction All-Risk, including property damage and DSU*
- Property All-Risk, with business interruption and extra expense

Photovoltaic:

Comprehensive property protection is available for the full range of installation projects, from ground and roof mounted panels, to farms and power plants. We also insure manufacturers and suppliers of machinery, equipment and services to the solar industry.

Offerings include:

- Construction All-Risk, including property damage and DSU*
- Property All-Risk with business interruption (BI), and investment tax credit coverage *
- Multiyear Property All-Risk, extending from construction through operation with DSU* / BI

PRODUCT PROFILE

Casualty Insurance

Commercial Primary and Excess Liability insurance policies offer coverages for occurrences worldwide, time element pollution, optional failure to supply and limits up to \$20 million.

Services for Concentrating Solar Power include:

- All Risks Assessment for construction and operation
- Jurisdictional Inspection Services

Claims Services

With more than two decades handling claims involving solar facilities and other energy-related operations, our specialists have honed the skills and perfected the processes needed to analyze and adjust losses effectively and expeditiously.

* Time Element coverages include Production Tax credits and REC's
